Subject: New SH 2021 Projects for B&V

I updated our 08W Hardening Spreadsheet to include new column "Project Type" for ECOP and System Hardening projects. Below are two new CPZ we need to hardened in 2021 based on the new RISK model:

Status	Short Text	Year	Project Type
1. PM Not Created	SH - Bucks Creek 1101 CB	2021	SH
1. PM Not Created	SH - Keswick 1101 LR 1586	2021	SH

Please work on both projects once you're done with your current 2021 ECOP projects.

Best,
