[REDACTED]

Is there someone in IT that can do a scrape of all the documents in EDRS that tie to these 27 Projects.

We are creating slides from each of those documents for a high level discussion with leadership – but it is sensitive as both the Federal Monitor and the Operational Observer are at the meeting.

I need to get it over to the KPMG team that is helping us pull all the material together.

There is no such thing as a small act of kindness; every act creates a ripple with no logical end.

The project list of 27 in construction projects is attached. Column AZ has the business case documents in EDRS. Let me know if you can't open those, and we'll figure something out.

What you've outlined below is fine, thanks for your help.

H [REDACTED]

I wanted to follow up with you on the in-construction profiles for this Wednesday. I know the team wanted to do a project by project review for that bucket of work, and I wanted to follow up on that status of those profiles. From the WFRG meeting last Friday, we had an initial template set up that used the Advanced Authorization data and what was produced by [REDACTED] model. Where you planning on using this template for the meeting this week, or was there another format that you had planned to use?

PGE-DIXIE-NDCAL-00000053

Additionally, my team would be happy to provide assistance with pulling these profiles together if your team needs it. We would need:
The Advanced Authorization
Image of the planned work
Any detailed estimates for cost
Full list of projects

Happy to hop on the phone to discuss this as I know there is a quick turnaround on profiles.

Thank you
