Attachments: December Site Visit Details - v3.docx; IMPORTANT: Governor's Stay-at-Home Order and Recent Changes in COVID-19 Rules

Morning Friend... looks like the field visits are cancelled and any future ones you would more than likely be able to Sherpa.

Respectfully,
Travis

Subject: Filsinger Field Visits scheduled for Dec 14-17 are postponed.

Team,

Following the unprecedented surge of new COVID-19 cases in our state, the Governor's office and other agencies have recently issued new rules and protections to prevent increased spread. Many of these rules apply to our workforce in all capacities. The attached message from [REDACTED] VP of HR, spells out the guidance in more detail.

In light of this, we have decided to postpone the Filsinger Energy Partners site visit that was scheduled for the week of Dec 1.

Your safety is the single most important factor, and pushing forward with this site visit at this time is not prudent.

I know a lot of work has already gone into preparations, and I am hoping that much of that work is not wasted but can get refreshed working closely with [REDACTED]. We have not selected a new date for this site visit as we need to wait for direction from State / County Health Authorities and our HR Team.

[REDACTED] will still continue to work together with the planning and firm up on the content of the site visit, as the schedule can easily be plugged into the calendar when it's safe to do so.

So, please provide [REDACTED] with any open items to complete the outlined agenda. The attached document is highlights information that's still needed.

Thank you to everyone for your assistance thus far. [REDACTED] will keep everyone in the loop on both the agenda and schedule.

Thanks
