Hi [REDACTED]

Please see the attached for the 2021 Project List. I would be happy to go over it with you if you have any questions.

Best,

The wildfire governance committee provided approval to study around 460 miles. Our goal is to construct 180 miles of it, however, since we have yet to scope it all, we do not know exactly which 180 miles of the 460 will be constructed. If there is any potential overlap with your workplan, lets plan to discuss in a short meeting so that I can help you with expectations. I'm hoping that these top 460 miles will be work we can complete by the end of 2023.

Can you provide [REDACTED] a copy of our project tracker sorted for only the 2021 workplan and work with her to provide her the information she needs?

Thanks!

Hi [REDACTED]

Has a SH plan been approved by the WGC?
Do you mind sharing the latest?

Hi [REDACTED]

Do you mind providing us with your 2020 Schedule too - what's been completed and what remains on target for completion this year?

Not sure if [REDACTED] has completed the update on the DOT for our recently discussed changes, but can you review and get [REDACTED] and team the most current 08W 2021 workplan today?

Our talking points said the following for next steps, lol:

Next steps:

- [REDACTED] to provide [REDACTED] list of CPZ's targeted in 2021. [REDACTED] will provide a forecast for work known in those targeted CPZ's so that a decision can be made on deferment or elimination of those CPZ's from the EVM plan.

Can you send the CPZs associated with the current 2021 SH Plan? I understand the plan may iterate but we want to make sure we exclude the CPZs that are in your plan from our EVM planning.

Please reply all with the plan as those CC'd are working on the EVM planning.
