**Importance:** High  
**Attachments:** 2021 SH Project List 01.08.21.xlsx

Hi [REDACTED]

[REDACTED] and I received the attached plan for 2021 System Hardening projects yesterday.

I was wondering if you perhaps you have info on who the Project Managers will be and/or any order numbers for the projects slated for Sierra. This plan doesn't show schedule dates either. If available, we're hoping to get that info, as well.

Thanks for any help or guidance you can offer at this time.

[REDACTED]

Hi RMs –

The wildfire governance committee provided approval to study around 460 miles within System Hardening through 2023. SH's goal is to construct 180 miles in 2021, however, since they have yet to scope it all, they do not know exactly which 180 miles of the 460 will be constructed.

As it stands, there are 7 CPZs that overlap with our current approved plan, I have a call with [REDACTED] team to discuss further. I welcome any feedback.

*Overlap CPZs:*

<b>REGION</b>	<b>CIRCUIT_PR</b>
Bay Area	LAS GALLINAS A [REDACTED]
Central Valley	OAKHURST [REDACTED]
North Coast	FITCH MOUNTAIN [REDACTED]
North Valley	BIG BEND [REDACTED]
North Valley	DESCHUTES [REDACTED]
Sierra	MOUNTAIN QUARRIES 2101circuit_breaker
Sierra	VACA DIXON [REDACTED]

[REDACTED]  
*Program Manager - Enhanced Vegetation Management*  
**Pacific Gas & Electric Company**
