Hey [Redacted]

Thanks for the call at first and clarifications around which should be the source of truth in terms of planned mileage.

As discussed, here is the list of orders that were highlighted green in the executive scoping status report but has not yet made its way in the DOT. The orders have already been submitted as of today and should be in DOT once [Redacted] makes the changes.

Please refer to the tab labeled "Project List" and refer to column BQ for orders currently not in the DOT. Those orders will have a designation of "False" and should total to 53 orders.
