One per division. Do you want me to organize by division and resend it to you? Then can prioritize for each surveyor?

How many crews will be completing the surveying, basically how many projects can have the surveying worked on simultaneously?

Thank You,

Hello [REDACTED]

[REDACTED] has a meeting this afternoon with the land surveyor that will be coordinating all of the SH base map work.

I need to get these into some kind of approximate priority so we know which maps to create first.

Please prioritize or call me to discuss at your earliest convenience.
