[REDACTED]

See attached draft slide for your review. I leveraged the unit cost analysis we just performed as the basis (attached e-mail).

I will target COB today to give Justin some time for any of his input.

Hi [REDACTED]

Can you send me the slides to review by tomorrow at 11am?

Subject: Action Item: System Hardening processes

[REDACTED]

A few questions on this action item from the xxx Work Execution meeting:

Action
Evaluate the differences in process between System Hardening done for Rebuild versus System Hardening done for work. Determine possible efficiencies which may help to lower cost / mile and present a deep dive on those findings opportunities in the January 22 meeting.

Will you have a slide to add to the deck this week? Or, is this just a discussion during the meeting? If there is a slide, is it possible to have it by Thursday afternoon to incorporate it into the master deck? Let me know your

thoughts.

Thanks,
