[REDACTED]  
These two EDRS routings have been updated.

[REDACTED]  
Can you change [REDACTED] so people on the Cc list can add/edit documents?

Sorry about that [REDACTED] I have added you to the rest of the EDRS as well. Please let me know if I missed one and I will correct it.

Thank You,

I'm ok with the segmentation in kmz form if you still have the information you need from that.

I ensured you were in the cc within EDRS for those 3 projects.

I finished up three jobs as shown below. I couldn't update the EDRS because I'm not on the Cc list. If you add me I can get those docs uploaded for your review.

Also, for PVPH05:

- the key sketch only shows the preferred hybrid option
- the worksheet had all three but had some footage errors that I identified and corrected for the EASOP
- there was no unit cost sheet
- the segmentation map was in KMZ form

I'm not sure who to contact about getting the segmentation map in a .pdf (of if that is even necessary). Give me a name and I'll track it down if needed.

And I sent a note to [REDACTED] to see when he thinks he will have the key sketches for the other two alternatives done. Or if you want me to post it as described in the bullets above so it can post now, just let me know.

Thanks,

North Dublin 2101, Shingle Springs Ph 1 & 2 are all basically completed. Just need EC tags and segmentation maps.

Will let you know if I log on tomorrow for any of the projects.

I'm working on Volta. Should be done with that before the end of today.

I will work on Bucks Creek 1101 next.
