**Attachments:** Op Date Request 28Jan21.xlsx

[REDACTED]  
[REDACTED] ran a vlookup and included PM numbers (Col 'F'), P6 operative dates (Col 'I') and project manager names (Col 'J'); most are not project managers. As you can see, there are not a lot of operative dates. I called [REDACTED] and asked her where she got this list. A lot of these do not have PM numbers in the DOT. I think [REDACTED] set up a meeting during lunch to discuss. Trying to avoid more of the wild goose chase.

Hi [REDACTED]

If you have a list of the orders that you can send to [REDACTED] or [REDACTED] mentioned that they may be able to pull this data from P6.

Hello, I wanted to give you an update –  
We ran a vlookup for these projects, and most do not have a operative date in our database. I don't know why. I'll tell you that a lot of people are working the EOC or storm response for the next couple of days, so I can't make any promises as to when I will be able to get you the info you need. I'm going to start contacting PMs for info, we'll see how many are available.
