2/3/2021 3:03:22 PM RE: Request: Intro conversation regarding strike tree analysis Oakland K 1102 (Hardened) - Spans.kml

- sorry for the miss! The outputs are KMZ files. An example is attached (you may need to uncheck the Terrain box in order to see the outputs in Google Earth because some LiDAR elevations are not perfectly compatible with Google Earth terrain rendering).

BANGOR 1101	DIAMOND SPRINGS 1105	KIRKER 2104	NORTH DUBLIN 2101	RINC
BIG BASIN 1101	DIAMOND SPRINGS 1107	KONOCTI 1102	OAKHURST 1101	RINC
BIG BEND 1102	DUNBAR 1101	LAS GALLINAS A 1105	OLETA 1101/MARTELL 1101	SHINC 2109
BRUNSWICK 1103	DUNLAP 1102	LOS GATOS 1106	OREGON TRAIL 1103	SILVE
BRUNSWICK 1110	ELK CREEK 1101	MARIPOSA 2101	PINE GROVE 1102	SILVE
BUCKS CREEK 1101	FITCH MOUNTAIN 1113	MARIPOSA 2102	PLACERVILLE 1112	SILVE
CALISTOGA 1101	FROGTOWN 1701	MIDDLETOWN 1101	PLACERVILLE 2106	STAN
CALISTOGA 1102	FROGTOWN 1702	MIDDLETOWN 1102	POSO MOUNTAIN 2103	TIDEV
CAMP EVERS 2106	FULTON 1107	MIDDLETOWN 1103	POSO MOUNTAIN 2104	TULU
CLAYTON 2212	HALF MOON BAY 1103	MIWUK 1701	POTTER VALLEY P H 1105	UPPE
COARSEGOLD 2104	HIGHLANDS 1102	MIWUK 1702	PUEBLO 2102	VACA

Thanks,

Mechanical Engineering and Numerical Analysis Applied Technology Services (ATS)

Subject: RE: Request: Intro conversation regarding strike tree analysis

Just select distribution circuit segments that are begin identified for PSPS de-scoping at this time.

Very nice!

For what coverage area is this model's results available? All of HFTD 2 and 3? Or only the potential PSPS descoping areas being considered? Or some other extent?

On Mon, Feb 1, 2021 at 5:41 PM

This work is part of the PSPS descoping criteria **team** team builds a mechanical simulation of the distribution line and then uses the LiDAR tree data to identify which trees can reach the line. The simulation then models those

## PGE-DIXIE-NDCAL-000001490

trees falling on the line and the results indicate whether the tree is likely to break the line or other components of the line.

*****CAUTION: This email was sent from an EXTERNAL source. Think before clicking links or opening attachments.**** Ah, well, I wonder if perhaps I already know about your model
I work for and closely with
, today showed me a great presentation about your strike tree analysis work - could you share it with me?
can you help illuminate things here? I'm sure I'm missing something simple with regards to understanding work.
Thanks,
On Mon, Feb 1, 2021 at 4:53 PM Hey
Happy to share. The model <u>we developed</u> is being utilized by and his PSPS descoping model and some other purposes. Plugging in the second some is aware of the ask.
What times are available for you?
Cheers,
Sr. Manager – Mechanical & Materials Engineering Applied Technology Services

PGE-DIXIE-NDCAL-000001491

I recently became aware of your work on analyzing tree data (from PG&E's LiDAR surveys, I believe) to inform System Hardening work planning.

My team would very much like to learn more about your work - would you have time to share some details with us? Just a half-hour would be great!

I'm happy to schedule a mutually-available time.

Please let me know, thanks.

Cheers,

Product/Project Manager (Contractor) Risk and Data Analytics (RaDA) PG&F
