oubject.	NE. Front Boot Frojest Assignment
Hi	
This all sounds good.	I will take on the Diamond springs and transfer the remain Brunswick's over to
Thanks,	
From: Sent: Tuesday, Febru To: Subject: Front Door I	pary 09, 2021 11:33 AM  Project Assignment
Hi	
miles of 11.02, of which	ned the Shingle Springs Phase 3 to It consist of 5 separate orders with total ch 8.21 is overhead and 2.81 underground. We will tackle the overhead portion of this and round to go through estimating only this year.
do have the following	g 3 I need to assign as well.
I'm thinking of assigning the Bucks Creek to and the two Diamond Springs to that will give you a total of an additional 7.47 miles, totally 15.68 miles of overhead. Also to lighten up your load, transferring the Brunswick jobs that you are working on now over to to finish up.	

I need to get these assigned this morning, so if any of you have objections, please let me know ASAP.

08W – Bucks Creek 1101 - CB Project separated into 3 phases 1-3, with 3 separate Order Numbers (

Total estimated Full-

Project Costs =

Rebuild/replace 4.73 miles of OH line with Level 1 and Level 3 system hardening construction consisting of 0.48 miles of overhead and 4.94 miles of underground.

ECOP – Diamond Springs 1107 – H02 – LR 1402

OBW ECOP Project consists of 2 phases
Rebuild 2.47 miles of
OH distribution line with 1/0ACSR TW. 1 mile
of OH to UG conversion with 1100EPR and
1/0EPR undeground cable. Install 8 OH fuses,
2 OH switches and 1 UG PMI-9TT.

ECOP – Diamond Springs 1107 – H01 – LR 1402

••• 08W ECOP Project. Rebuild 5 miles of OH distribution line wth 397 A TW and 1/0ACR TW. Intall 11 sets of fuse cutouts, and 2 OH switches.

In-service date of 3/31/3024 should be reviewed once assigned. Project work appears to be all under 1 project.
