**Attachments:** 2021 System Hardening Approved.xlsx

Hi [REDACTED]

OneDrive/Sharepoint is having a tough time today – so I've attached the current list we've gone through.

To Note:

- If there is a date in the EOD (SAP) field, then that is our commitment. You can lock these in your tracker.
- You'll see some of the jobs don't have a Desired EOD (from your tracker), as well as a few jobs not making the Desired, Latest Allowable, or both (column N and O)
- Jobs highlighted in yellow, we haven't discussed EODs – they will be discussed on our next manager meeting as they were recently approved.

Thanks,  
[REDACTED]
