Hi [REDACTED]

PM [REDACTED] has 'scope overlap' with my project [REDACTED]. What is the process to ensure that the two projects scopes come into alignment? [REDACTED] was the scoping ADE for my project and appears to be the ADE on the Sub project as well....should he confirm scope is in alignment? [REDACTED] is the new ADE assigned to my project.

Please advise as to what the process is to ensure that we have scope alignment considering PM [REDACTED] appears to be nearly ready to break ground.

Please advise,

[REDACTED]

Hi [REDACTED]

Attached are the most recent CMCS and construction drawing for PM [REDACTED] the job to rearrange facilities at the Bucks Creek substation. SAP shows a construction start date of 02/16/2021 and construction end date of 07/06/2022.

Thank you for your time,
