All,

[REDACTED] is not available tomorrow so I am going to cancel this call and just call [REDACTED] separately to provide her details.

[REDACTED]

As of right now, the majority of this project is in scoping. We do not have a full scope of the project; however, it is a system hardening project where we will be replacing poles and conductor. We will also be installing larger crossarms and potentially having interest poles. Please find the KMZ attached.

I wanted to touch base with you first before a Land Planner or myself reached out to Plumas National Forest as I know you have a very strong relationship with the Forest. Would you be able to get in contact with the Forest to request that they attend the project walkdown, or would you rather one of our Land Planners reach out to them directly?

Thanks!

Hey [REDACTED]

We have a System Hardening project that PG&E Executives are planning on attending a job walkdown. They have requested that Agencies attend this job walk. One of the agencies that this project may impact is the Plumas National Forest. The job walk is scheduled for next Thursday or Friday. I was hoping that you might be able to help us get an agency personnel to attend the meeting.
