[REDACTED]

Sorry, I might have missed your response but confirming that on Thursday we are meeting at the PG&E [REDACTED] and if you are leaving [REDACTED] at 0700 you should arrive [REDACTED] around 0845 – sound correct and shall we meet at that time or did you just want to call me as you roll in to town as I'm only 5 minutes from there? [REDACTED]

Take care,

[REDACTED]

[REDACTED] very close to the [REDACTED] I can meet you there. Let me know what time or just call when you get in to [REDACTED] and I'll come down as I'm 5 minutes away.

Take care,

Excellent.

We are heading out of [REDACTED] around 7am.

Where is a good place to meet up with you?

[REDACTED]

I'd be happy to meet up with you Thursday am and tour around or assist in any way needed. Just email or give me a call.

Take care.

[REDACTED]

I have added [REDACTED] to this email.

[REDACTED] replaced me as the Butte and Plumas PSS. He retired [REDACTED]. He also grew up in the area and is very familiar with the County.

If you would like to tie in with him in the am, he can assist you with any questions about the upcoming tour. I of course still can meet for lunch, since I like food.:)

Probably going to be checking out the projects this Thursday in prep for next week.

Let me know if you want to join. We'll be in that area around 9am +/- . Or if you want to meet for lunch afterwards.

Thanks [REDACTED].

I'll drive it in the next day or so and confirm our meeting up location. We were thinking the lineman's school in Oroville might be easy but I'll report back.

[REDACTED]

Last cell service and location to meet would be across from Jarbo Gap CAL Fire Station on highway 70. The restaurant used to be called Scooters and has a large parking lot and cell service. Once we drop below that location, we lose cell until we get down near Bucks and you have to have a booster. Each PG&E facility usually has wifi at their location also and there are three to four hydro facilities along the way depending final route.

No problem.

If we go with Bucks Creek we will need to be clear on the logistics. It's well out of cell range so I'll find a meeting location within cell range that we can all head out from together.

Perfect!

Working on a more detailed schedule now. Haven't received the official blessing from [REDACTED] and [REDACTED]

Hi [REDACTED]

Yes. We do want [REDACTED] team included on the April 12 visit.

[REDACTED]

We plan to visit the 3 Bucks Creek projects

Hello All!

FYI, the following is a high level snapshot of the April Site Visit agenda. No feedback yet.

I'll let you know when they've given the go ahead.

Thanks,

[REDACTED]

Subject: Site Visit Updates

For your consideration is the proposed site visit high level overview. Please review and let me know of any changes or recommendations.

Monday, April 12th

0800 Start Time

AM and PM – System Hardening Project with Agencies

Three projects on the Bucks Creek circuit that cover 4 miles. They are high risk score on the new risk model. They have Railroad, Caltrans, Forest Service & PG&E Hydro to manage. These projects are also 90% underground which means they won't be built until 2022. The projects are south east of Paradise.

Do you want someone from [REDACTED] team to be included?

Tuesday, April 13th

0900 Start Time

AM – Distribution Inspect App Observation w/ Contract Inspectors

PM – Transmission Inspect App Observation

AM – [REDACTED] Distribution, Chico)

PM – [REDACTED] (Transmission, Oroville)

Wednesday, April 14th

PGE-DIXIE-NDCAL-000006024

0700 Start Time
AM/PM – Vegetation Management

Post wildfire mitigation and EVM work in Redding, CA.

All of these projects are in the North Valley Region. Logistically, Chico looks like the best central hub for all three days.

Thanks,
