Morning [REDACTED]

[REDACTED] can fill you in on the meeting place... I will help you show Caltrans where our proposed work is.

Order	Project Reporting Year	Order Description
[REDACTED]	2022	CWSP - BUCKS CREEK 1101 CB PH 2
[REDACTED]	2022	CWSP - BUCKS CREEK 1101 CB PH 3
[REDACTED]	2021	CWSP - BUCKS CREEK 1101 CB PH 1

The projects above start at Caltrans Mile-Marker 1.3 on Hwy 70 (North end of the third tunnel or at our Cresta Dam), project ends at Mile-Marker 5.3 on Hwy 70 (just prior to the Storrie cabins). With the exception of spanning the Feather River three times OH, we are undergrounding the whole section in Caltrans R/W.

Another helpful point of interest would be the currently under construction 95F Order, 35170663. This project is very similar in scope from a Caltrans perspective, and the PM mentioned that [REDACTED] with Caltrans has played a significant role in helping us gain the permit to construct along with working with us to gain 'variances' throughout the project. We will all be driving through this project to get to the Bucks Creek projects.

Respectfully,
[REDACTED]

Subject: Bucks Creek

[REDACTED],

Can you give me a few of the order numbers for the bucks creek as well as anything we know for the site visit. I assume we will meet at the lineman college in Oroville the morning of the 16th (although we won't know the official time for a while). Also any long/lads could be helpful. This is for Aimee Crawford as she is reaching out to Caltrans so whatever we can give them would be helpful.

Regards,

[REDACTED]
