Hey [REDACTED]

[REDACTED] is the PM, he might be able to provide better details. One of our survey vendors is in the process of mapping Hwy [REDACTED] installation of an UG electric line so the existing pole line on the opposite side of the canyon can be removed. That's basically all I know.
Thanks,

I was requested to secure project information to provide to Caltrans prior to the field meeting on April 16th. Do you have any other details than it is an underground project that I can provide to Caltrans, please direct me to whom may have that answer.
