Subject: RE: Maintenance and Pole Replacement Priority E Tags - ADDING H-TAGS
Attachments: Book2.xlsx

Team:

Attached are all of the open "H" tags as of 5/18.

Thanks,

Some of the measures included in this email are contemplated as additional precautionary measures intended to further reduce the risk of future ignitions following the 2017 and 2018 wildfires.

Subject: RE: Maintenance and Pole Replacement Priority E Tags - ADDING H-TAGS

Folks – attended the executive session yesterday with [REDACTED] to discuss the backlog and the prioritization efforts underway. An ask came from our new SVP [REDACTED] to prioritize the H-tags (about 10k) to our analysis.

Can one of the team send me the H-tag backlog by HFTD/non-HFTD, Cap/Exp/Pole with Lat/Longs?

Thank you in advance

Adding [REDACTED] will post the Open Priority E EC notification (pole and non-pole) file. In addition to the Lat/Long, I've request to include an indicator on whether the EC is already on a 2021 Workplan.

[REDACTED] - Great – for now let's go ahead and store the file on the Maintenance Teams site. I've created a folder called [EC Tag Scenarios](#). When you save the file, please label it with EC Pole and Non-Pole_Priority E_mmddyy.

[REDACTED] – For now this is a one-time request. Will contact you/your team if a regular request is needed. Also, while not yet fully built out or determined for the owner/users/confirmation of data quality, I anticipate that a future Palantir Foundry dataset would be helpful for users since it can link several data/info (e.g., in addition to the EC information, also the risk inputs such as P90, High Safety Consequence indicator, etc.).

[REDACTED]

Is this a regular data pull that we need to send to [REDACTED] team or a one-time request? If recurring, my team can help set that up.

I have all but the last item and I can easily bring that in where do they want the file posted?

Thanks,

[REDACTED]

[REDACTED]

Just checking – do you already have a file of ALL Open Priority E tags (pole/non-pole). If so, see below for the info that [REDACTED] (Risk and Analytics) is requested.

- EC #
- Lat Long
- Is the EC already on the 2021 Work Plan (either DO or MPP)

Thanks

Thank you for sending. What additional info we need as I have the E tags as of today (pole/non-pole)?

[REDACTED]

This is a request that came out of an Asset Strategy meeting this evening. The meeting request just indicated "Maintenance" but the topic/request also included EC pole in addition to EC non-poles. There are daily meetings scheduled for 5pm this week. I'll forward the meeting request to you (mtg request from [REDACTED])

Can I ask what are you working on as we have submitted the now weekly report on all open, closed tags and [REDACTED] has done a review and submitted it on poles?

Thanks,

Subject: Maintenance and Pole Replacement Priority E Tags

I am working with Asset Management to look at the Maintenance tags and Pole Replacement tags.

Could you provide the following:

- File of all open Priority E (pole and non-pole) EC notifications
- In the file, can you also indicate the ones which are already on the 2021 Workplan Master File

Also, in the file can you provide the type of information that is included in the DO Workplan.

Thanks,
