2021 Plan vs Prior Year Actuals Capital by Program

| Key Takeaways: |
|--|
| |
| |
| Plan Distribution New Business and Work Requested by Others |
| reduced based on assumed economic impacts of COVID-19 |
| that did not materialize. |
| Executability of overall portfolio is dependent on |
| internal/external resource capacity |
| Highlights of Outstanding Risk Items: |
| Executability and Resourcing of Capital portfolio |
| including: |
| T&D Major Projects – T-Line, Sub, Capacity |
| System Hardening |
| via updated risk model |
| Mobile Home Park |

 Transmission Capital portfolio prioritization to align with STAR Filing

INTERNAL - 6

Capital Assessment

Methodology: Proposed RET (Column E) based off Funding Requests in May. Adjustment (Column F) includes Spend highly likely to materialize + 50% of relevant RFP opportunities + possible Run Rate underruns in selected Programs.

Summary: Above methodology delivers an overall EO Capital spend <1% above Target. Assessment assumes Programs requesting funding in April/May will execute fully on new work plans. Also assumes RFP will deliver benefits in current year. Programs underrunning current work plan need to have executability assessed. Programs with execution at risk should be used to offset increases in work plan. Largest spend unknowns currently in Base Capacity/Reliability and System Hardening (significant UG this year)

| Millions (\$000,0 | 000)'s | А | в | С | D | E | F | G = E - F | H = D - G | 1 | J | |

| Execution Wedges Continue to monitor and | TO Total Plan | | | | | |
| | Execution Wedges | | | | | Continue to monitor and |
| TO Total Plan W/Wedge | TO Total Plan W/Wedge | | | | | develop levers and triggers |

Portfolio Risks:

- Continued financial pressure from increase in emergencies
- Substation test resource constraints
- Construction delays due to PSPS / Wildfire events
- Clearance Cancellations & Permitting
- Inclement Weather
- Tower Coatings Program
 - PG&E to submit request to FERC to capitalize this work in mid-June.
 - Expect FERC response in Fall 2021

Internal

Distribution Substation

| Program | мwс | MWC Description | YTD ACT | 2021 RET | 2021 PRJ | Variance |
|--------------|-----|----------------------------------|---------|----------|----------|----------|
| | 9 | E Dist Autom/Protection | | | | |
| | 46 | E Dist Subst Capacity | | | | |
| Distribution | 48 | E Dist Repl Other Equip | | | | |
| Substation | 54 | E Dist Repl Transformer | | | | |
| | 58 | E Dist Repl Subst Safety | | | | |
| | 59 | E Dist Sub Emergency Repl | | | | |
| | | TO Distribution Substation Plan | | | | |
| | | Execution Wedge | | | | |
| | | TO Distribution Substation Total | | | | |
| | | | | | | |

Key Takeaways:

Project Risks:

 <u>Potrero Emergency Rep Bk2</u> – Delta Star CEM XMFR has been stored at Martin Sub for 8 year. Parts needed. <u>Needs undress</u>, redress and retest.

Project Opportunities:

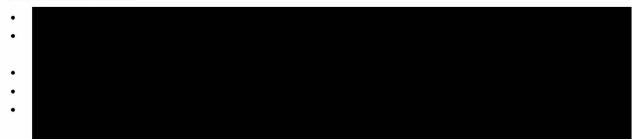

- <u>Embarcadero Repl Bank 2 XM</u>FR
- Pueblo BK 3 Final Grading -
- <u>Potrero Emergency Rep Bk2</u> New CEM <u>XFRM shipping</u> from Austria in Sept.

Transmission Substation

| Program | мwс | MWC Description | | YTD ACT | 2021 RET | 2021 PRJ | Variance (RET-PRI) |
|--------------|-----|------------------------------------|---|---------|----------|----------|-----------------------|
| | 3F | ET Protective Relays | Γ | | | | |
| | 61 | ET Substation Capacity | | | | | |
| | 64 | ET Substation Replace Breakers | | | | | |
| Transmission | 65 | ET Substation Emergency | | | | | |
| Substation | 66 | ET Substation Replace Other Equip | | | | | |
| | 67 | ET Automation/SCADA | | | | | |
| | 68 | ET Substation Replace Transformers | | | | | |
| | 94 | ET Reliability General | | | | | |
| | | TO Transmission Substation Plan | | | | | |
| | | Execution Wedge | | | | | |
| | | TO Transmission Substation Total | | | | | |

Key Takeaways:

Project Risks:

 <u>Metcalf 230kV & 115kV MPAC's</u> – change order to increase size to fix

May WRFR for breaker failure installation for improved PSP response.

Project Opportunities:

- <u>Pit PH Repl Banks 1 & 2</u> FERC approval. construction contracts may
- <u>MWC 3F</u> expect approximate
- <u>Gates Bus Section E</u> engineering delays could push construction to
- Table Mountain 500/230kV XMFR
- giveback expected during June forecast cycle.

Internal

Transmission Line – Overview

| Program | мwс | MWC Description | YTD ACT | 2021 RET | 2021 PRJ | Variance |
|--------------|-----|----------------------------|---------|----------|----------|----------|
| | 60 | ET Line Capacity | | | | |
| | 71 | Trans Rep Line ROW Access | | | | |
| Transmission | 72 | Trans Rep Line Underground | | | | |
| | 92 | Line Emergency Repl | | | | |
| Line | 93 | Trans Preventative Work | | | | |
| | 93 | Tower Coatings | | | | |
| | 94 | Reliability General | | | | |
| | | TO Transmission Line Plan | | | | |
| | | Execution Wedge | | | | |
| | | TO Transmission Line Total | | | | |
| | | | | | | |

Key Takeaways:

•

.

- Creater around expected during Fell clearance
- Greater spend expected during Fall clearance window.

Project Risks:

Diablo-Gates #1 500kV Ins Repl.

Project Opportunities:

- <u>Tower Coatings Program</u> Submission to FERC to capitalize work in mid-June. FERC response
- <u>Exchequer-Yosemite</u> expect Sierra
- <u>East Grand-San Mateo Cable Repl</u> Construction contract, encroachment
- Drum-Rio Oso trving to schedule
- <u>Eastshore-Oakland J EAM decision</u>
- <u>Maple Creek-Willow Creek</u> permit

2021 Major Projects & Programs Capital Portfolio by the Numbers

* Units do not include Surge Arresters. 5,685 of the Units Increase is Poles.

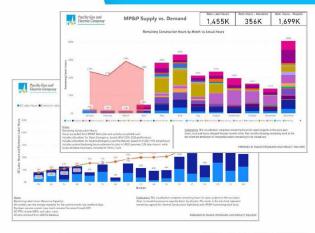

17 •

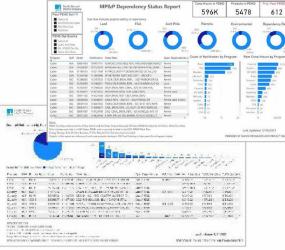

** Surge Arresters, Ceramic Post Insulators, Mobile Home Park, Emergency, DO NB, DO WRO, NERC, TO Right of Way Access, TO EGI, TOWRO orders and hours not included in map, hours, or orders. Some orders will not show on map as they are missing GIS location, but are included in the order totals/hours total. Data pulled: 5.17.21

PREPARED BY MAJOR PROGRAMS & PROJECTS DELIVERY

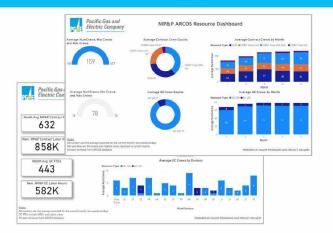

2021 Major Projects & Programs Data Visualization & Work Managemen

PREPARED BY MAJOR PROGRAMS & PROJECT DELIVERY

Key Takeaways

Data visualization tools provide visibility and enable focused actions:

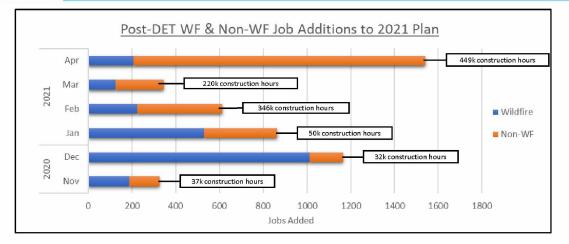

- Work supply & execution capacity
- Work readiness & bundling
- Regulatory Commitments
- Dependencies (permits)
- Field resources (crews)
- Contracted work (awards, volumes, schedule)
- Weekly scorecards

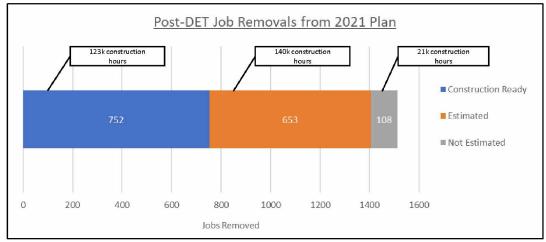

Recurring huddles support effective work progression:

- Portfolio & Program Review (monthly)
- Work Execution Review (weekly)
- Scorecard Review (weekly)
- Coordination | Program / Project Management, Estimating, Estimating, Permitting, Contracting, Construction (weekly)
- Special Attention Reviews (daily)

2021 Major Projects & Programs Portfolio Churn Highlights

Note: WF Mitigation programs in data above are: System Hardening, TOL, PSPS, Idle Facilities Removal, Microgrids, and Weather Stations

Key Takeaways

MPP portfolio is currently ~2.5 M construction hours

~51,000 workplan change requests YTD

Since 2021 DET was set November 2020:

- 1.13 M construction hours (4,857 jobs) added 47% wildfire related 43% pre-estimating status
- 284 K construction hours (1,513 jobs) removed 50% were construction-ready

Note: Major emergencies YTD: ~26% (General Construction) and ~28% (Contract) of total available hours

Major Programs & Project Delivery Dashboard Accountable Sr. Director: Jonathan Seager Operational Period 19: May 6– May 12

Path to Green – RAG Red Units Programs

| Program | Primary Driver: Why We Are Behind on Units | Path to Green | Long Term Measures To Prevent Re-occurrence |
|---------------------------------------|--|--|---|
| DO Non- exempt Fuse Replacement | Program rescoped to align with MAV risk model; new scope received 4/20. Scoping delay caused program to miss original monthly targets. Revised 2021 locations are now in workplan. Work is expected to start in late-May, but pro- rated YTD targets will cause the units to show as RED until the end of May/early June. | Construction Mgmt. supplied new production schedule and the program re-baselined its monthly targets which will return it to Green for May month end. There is currently sufficient Ready work to meet revised targets through mid-Sept. (749 Ready for construction to schedule). | Permitting has committed to moving units to Ready status a rate sufficient to meet construction updated production schedule. |
| DO LBOR Switches | Targets were developed with the expectation that 61 of the 96 jobs were either already Pending Permit or already Ready for Construction entering January. However, after the job list was sent to MPP for execution, it was identified that most of these jobs do not meet current standards and therefore need to go back through Estimating. | All jobs complete out of estimating by 5/31 (18 left) | Asset Planning will do a Standards review as part of scoping before delivering the work to MPP to execute. |
| DO Deteriorated Conductor | Program competing for resources with programs with higher priority work (e.g., System Hardening, PSPS). 65% of the remaining 2021 plan remains in pre-construction status to date. EO Loading order is currently 7. | Accelerate 4.22 miles that are currently click scheduled beyond Q2. Work with Permitting to move 20.29 miles that have been in PEND more than 60 days. | EBO to implement resource loading into the workplan development process to ensure sufficient resources to complete work regardless of loading order. |
| DO Reliability | Behind YTD unit target due to resources (DLT and Construction) focused on higher priority work and delays in scheduling ready work. | 39 jobs which are currently Ready for Construction scheduled to be able to start within 8 weeks (19 scheduled w/in 8 weeks currently). | EBO to implement resource loading into the workplan development process to ensure sufficient resources to complete work regardless of loading order. |
| TO Poles | Program annual unit distribution shows a bell curve, with lower amounts of poles replaced at the beginning and ending of the year. Therefore, small variances at the beginning of the year (storms) have larger impacts on the percentages. | Unit production expected to surpass target in May after slow initial ramp (no corrective action or re-baseline needed). | Future DET targets to be updated with closer monthly quantities from historical annual unit distribution. |

PGE-DIXIE-NDCAL-000007382

EO | Capital

- Strategic Sourcing T&D Construction RFP potential opportunity
- Resource contraints analysis ongoing to determine if we have the internal and external resource capacity to execute the full remaining 2021 Capital portfolio that each program is forecasting.

Progress from Prior Month

Specific capital funding authorizations continued to be reviewed and in some cases approved at Electric's internal Transmission and Distribution Work Resource & Financial governance forums. Approved work exceeds current financial plan within April's approved with the expectation that there will planned work that will not progress to execution the exceeds and that impacts of overall resource constraints have not be fully reflected in each programs forecast.

TO OPGW (Optical Ground Wire) Cable

Report Date: 05/12/2021

2021 CAP Findings

| Open CAPs | Completed CAPs | Total YTD |
|-----------|----------------|-----------|
| 2 | 0 | 2 |

Key CAP Learnings:

- Hundreds of miles of Optical Power Ground Wire (OPGW) are at immanent risk of physical failure.
- Failure of OPGW cables can result in fires, employee or customer injury, and loss of communication.
- Network 20/20 Program was initiated in part to remediate the safety issues present with OPGW fiber cable failures

PRIORITY RISKS, SUPPORT REQUESTED, & VARIANCE DRIVERS

Priority Risks & Support Requested:

The project doesn't have committed timelines or loading orders for TO OPGW replacement projects

Variance Drivers:

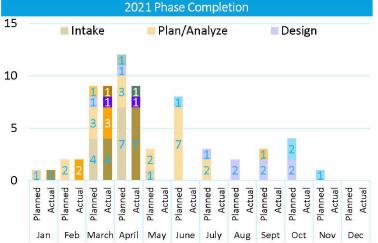

• N/A - baselining project schedules

Action Plan to Get Back to Green:

• N/A - project is green

State Infrastructure Portfolio

Executive Summary

DRIVERS / PATH TO GREEN

PERFORMANCE Overall Previous Green-By Project Month Health Date **Caltrain Modernization** 9/2021 **High-Speed Rail** Mobile Home Program **Diridon** Area Redevelopment **Moffet Park** East Whisman ╈ Rule 20A ♠ **EO Facility Access** Engineering Start 2021 **BART/VTA** Delta Conveyance Project Engineering Start Mid 2022

- Caltrain Electrification Interconnections: SPS escalated, meeting 5/18. 2021 Peninsula clearances resolved no issues. SVP Kifer completed 1 of 2 breaker upgrades.
- Mobile Home Program: The MHP Program will need to give back some funds in Q3 due to Investment planning overbudgeted the program by at least \$14M.

• EO Facility Access: ET Encroachment risk assessment completed; proposal presented to Mary Hunt May12. ET Boardwalk/ED Roads funding secured

EXTERNAL FACTORS

Caltrain Interconnections

Single Phase Study requires coordination with Caltrain and Silicon Valley Power, including KRS Relay Upgrades.

Mobile Home Program

- Program has an active RFP to onboard 2 3 additional vendors to support the program.
- Encountered issue with MHP Owner at Santiago Creek MHP, Project is on hold pending direction from SED.
- PG&E is expecting a resolution to the Paradise MHP Program in June, the program is anticipating additional scope from the commission.

Regionalization

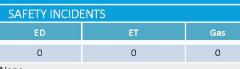

• Resources and timelines may be altered due to Regionalization.

Rule 20A

• Potential unfavorable ruling by the CPUC on Rule 20 OIR on May 20th.

State Agency Programs Report Date: 4/15/2021

|----------------|---|------------|
| New Service/IC | Transmission Load Operating Agreement | May 2021 |
| New Service/IC | Sign off on SPS | May 2021 |

PRIORITY RISKS, SUPPORT REQUESTED, & VARIANCE DRIVERS

Priority Risks & Support Requested:

 Caltrain: SPS escalated, meeting May18. 2021 Peninsula clearances resolved – no issues. SVP Kifer completed 1 of 2 breaker upgrades

Variance Drivers:

- HSR Jobs Complete: delayed due to customer delays in land rights procurement
- HSR Jobs Closed Out: delayed to due customer tardiness in providing final paperwork and due to internal process development; lack of FFE technical support/updates may be issue for final accounting on HSR ED jobs

Action Plan to Get Back to Green:

Work with Capital Accounting and ADE to better understand issues surrounding FFE and develop plan to resolve
