RECAP: YTD Electric Operations 2021 Capital Review

Attachments:

EO Capital Review_05212021_FINAL.pdf

Good morning, Team

Great discussion today. Below are the follow-up actions that we discussed, along with a couple ideas that were proposed for greater consideration.

Follow-up

- o [REDACTED] - Schedule ad hoc discussion with this team to do a deeper dive into Transmission Health – Substation equipment replacement funding (expense vs. capital)
- o [REDACTED] - Schedule ad hoc meeting with [REDACTED] to do a deeper dive into the MPP summary deck.
 - Additionally, [REDACTED] would like to participate in some of [REDACTED] meetings
- o [REDACTED] - Schedule an ad hoc discussion with this team on risk and accounting treatment for deferred work, stagnant work and cancelled orders

Ideas to Consider:

- o [REDACTED] - Team challenge to consider
 - *What would have to be true for us to have a stable workplan by the target date (October 1st)?*
- o [REDACTED] - Create standard reports as a starting point within PowerBI for MPP work management
- o [REDACTED] - We need to stabilize the workplan against portfolio churn by unifying on and adhering to work priorities (loading order)

Stay safe,

[REDACTED]

*"People don't care about how much you know, until they know how much you care about **them**." - Zig Ziglar*
