Attachments: Lat-Long CleanUp - Cannot Update.xlsx

[REDACTED]

I have updated all the Lat/Longs for this list for the jobs that fit the criteria below:

2019 miles installed
2020 miles installed
2021 forecasted miles

Attached are jobs that I could not update the lat/long data for – the notification has been completed.

I will continue to push forward on the City/County data following the same criteria as above.

Thank you,
[REDACTED]

Importance: High

Hi [REDACTED]

See attached a cleaned up list of the DOT for this exercise. Columns AB to AE show the geolocation data, red cells are the missing data. Second tab is the GIS data I obtained from [REDACTED] a couple of weeks ago you can leverage for the corresponding missing Lat/Longs.

To prioritize the list, please only focus on the following programs in column B:

- SH anything
- FRRB anything
- Other

Leave IF (Idle Facilities) alone until we connect again.

Thank you again for stepping up to the plate!!!
