I put the pieces in place per the conversation this evening. In the back of the deck has materials taken from Risk Model and Wildfire Governance decks. Also a couple of slides from the upcoming wildfire governance deck

The project example will have to be built up from scratch and with data from [REDACTED]. That will need data from [REDACTED] and [REDACTED].

I don't know if you will get it from the work done on the 2021 SH Sprint because the projects in scope for that sprint were only the 2021 SH Projects and we know the risk model shifted all the CPZ's and there was very little overlap, so these projects should not be in the top 20% of the 2021 CPZ list.

However, we have three projects that were outlined by [REDACTED]. I have included the slides in the deck in the back. Shingle Springs may be the right one.
