**Attachments:** 11.13.2020 Wildfire Risk Governance Forum V9.pptx

I added a slide in the appendix showing the 109 miles that need further review and mentioned the 350 other projects (1,165 miles) that will be stopped based on the new model.

Still waiting to hear from the PSS's. I hope to hear by this afternoon.

All,

Here is the near final materials, **I am behind on sending it out. I want to get it out by 12.**

Need to get one slide from [REDACTED] incorporated in here and then will be ready to send.  
Please get it to [REDACTED].

[REDACTED]

The one question I can see you getting will be related to the miles in construction is – have the Public safety specialists completed their review and what have they seen. Only because you are asking from the VP's to approve the work as no regrets and they asked for the Public safety specialists to do a check.

Also on the weekly Filsinger call, they suggested we clearly show the list of projects that were in the plan prior to these discussions that have now been taken out of the plan. This is to drive the point home with the Federal Monitor that we have made concrete changes.

Thanks
