Do powerpoints get special parties for their 30th versions?

I've updated the numbers for [REDACTED] project plan. It includes the top 25 out of 50 miles, as well as the full project list presented 11/13.

Thanks

Yes, I noted it as v30.

[REDACTED] you are not on the v53 of the WGR -11/20 distribution, [REDACTED] has been baby sitting three folks over the last two days. Four if you count me.

Hi [REDACTED]

Caught an issue in the title of slide 8. On slide 10, would you like me to update to the most recent plan stats from [REDACTED] presentation last week? Risk mileage and buydown go up with the newly proposed 25 miles.

Feedback on a few more items.

I put it in the slides, see the call out.

I have to build a slide in the back, if possible if I can get this back tomorrow.

Thank you [REDACTED] Attached is a revised version that includes my edits. I will connect with you tomorrow as I have a few follow-ups for the "Project Example" section.

Subject: Public Safety Metrics -- Full Picture

[Redacted]

Here is the full deck related to the Public Safety Metrics.

It has

1. The section on the improvements to the Risk Model
2. The section where the detailed NPV based RSE is calculated on a circuit protection zone that is in the top 50 miles where we have the highest risk, and how this risk buydown can be done once the full portfolio of projects is reviewed and approved
3. The section on how targets were developed in the absence of having a fully baked portfolio, using risk reduction rather than miles as our objective.
