Subject: RE: Dec - Full Board Meeting -- Risk Model Materials
Attachments: 2020-12-10 - Full Board - Risk Model v9.pptx

Thank you [REDACTED] Hope everyone had a safe and a great Thanksgiving holiday weekend.

I have included proposed edits for consideration in the attachment in addition to the comments referenced below.

- **Slide 4:** Suggest revising the graph as follows – a) Replace “Count of Fires” with total acres burned; b) Identify % of structures damaged and % acres burned in PG&E’s service territory as compared to rest of CA; c) Reference the fires in the context of “Examples” of major wildfires as this is not intended to be a holistic list
- **Slides 7 & 8:** I have moved these two slides from the Appendix Section and suggest consolidating them into one slide. Also, suggest removing the reference to Zogg Fire from the graphs as the CalFire investigation is still in progress
- **Slide 10:** Suggest revising the slide to show additional factors considered to inform the 2021 wildfire risk reduction workplan, e.g. strike potential trees, PSS expertise, multiple PSPS events, on the left side and the application including mitigation programs on the right side, e.g. EVM, SH, and 2021 – 2023 Public Safety Metrics

Please let me know if you would like to connect to discuss the aforementioned comments further.

Subject: Dec - Full Board Meeting -- Risk Model Materials
Importance: High

[REDACTED]

Apologies for this late e-mail on the Wednesday before Thanksgiving.

[REDACTED] was instructed by [REDACTED] to present the improvements to the Wildfire Risk Models that guide our key mitigation programs.

I just finished the materials.

[REDACTED] has reviewed an earlier version but may have more changes

Law has not reviewed, but [REDACTED] agreed to review (I think he agreed with the thought that he would get this yesterday)

When I have gotten both [REDACTED] and [REDACTED] to complete their reviews, can you send me the site where I need to upload these materials.

Thanks
