See Slide 17. I have to run it by

. I took what I know from existing

materials. If you can give it a quick look.

EVM Quality Control – Layers of Defense

Enhanced Vegetation Management Work Performed by External Contractors

Layer 1: Vegetation Management Quality Control Team

2020

- Primarily rely on contractor expertise for directly observing contract tree crews performing work.
- Work verification is performed on 100% of only the EVM program each year, typically within an average of 14 days following completed work
- Current workforce encompasses a 1:5 ratio of QV inspector to tree crews with 100 QV contract inspectors staffed at peak

2021

- Staff the VMI team with PG&E employees to ensure internal expertise on all aspects of Vegetation work, targeting a 1:20 ratio of VMI to tree crew
- Verification to include all vegetation management work (T&D), in HFTD areas on a 100% basis and a 25% random sample of non-HFTD work; Shift towards near real-time quality assessment
- Proposed workforce will be ~360 FTE, steady-state, targeting a 1:3 ratio of QV inspector to tree crews

Layer 2: Electric Quality Assurance Team

2020

- Quality Assurance Audits performed on samples of completed work
- Liaison with CPUC Safety
 Enforcement Division, Federal
 Monitor & Operational Observer –
 address findings & follow up actions

2021

- Significantly higher number of Quality Audits to be performed on completed work. All Audits will be Field Audits
- Dedicated & Specialized Arborist
 Team to liaison with Federal Monitor,
 Operational Observer & CPUC Safety
 Enforcement Division

| PG&E | Sr. Director, Risk – Special Projects |

From: Sent: Friday, January 08, 2021 5:56 PM To: Cc: Subject: RE: REVIEW NEEDED- 2021 Incentives Deep Dives Deck Draft
My apologies team. I have requested Andy to add another slide for the EVM Effectiveness metric that includes the QC/QA process as a follow-up to the question from the Comp Committee on level of confidence regarding efficacy of EVM work completed.
Also, there is another scheduled meeting on Monday to revisit the 2021 System Hardening target as this has been an area of significant focus and discussion. Andy and I are looking to drive alignment across the teams on this front.
I anticipate we will have a few updates on the aforementioned by EOD Monday and be positioned to finalize the materials for distribution at that point in time.
From: Sent: Friday, January 8, 2021 5:47 PM To: Cc: Subject: RE: REVIEW NEEDED- 2021 Incentives Deep Dives Deck Draft I think we need to try to send tonight or this weekend if at all possible. will not be able to preview on Monday as she will be in the field all day.

From: Sent: Friday, January 08, 2021 4:42 PM To: Cc Subject: RE: REVIEW NEEDED- 2021 Incentives Deep Dives Deck Draft
Attached are the updated LTIP materials for the 1/14 CC Meeting Deep Dive for your review. I'm planning to reflect updates from this deck into revised materials for meeting (difference would be to remove the "POR OII presumption" slide and broader STIP structure slides from the CC and include the "Finalize WSD Filing" for Deep Dive).

• I re-formatted the charts to be more user friendly (per request on this mornings general metric

call).

- For most of these measures, there aren't benchmarks available so the focus was on the performance trends based on available data.
- Attached is the updated Public Safety Deck provided by last night (reflected the revised System Hardening targets in the summary table).
- I have an outstanding question with Customer re: the Customer Satisfaction Score targets; the targets reflected in their deck (highlighted in yellow on pg. 5) don't match their metric summary.
- Corrected a typo on slide 7- name of slide changed "LTIP- Greater Affordability for Customers" (mistakenly reflected "STIP- Non-GAAP Core EPS")
- · Added a slide for relative TSR.

Please let me know if you're comfortable with the proposed revisions/have other edits/comments. My goal is to send this out early Monday.

The STIP materials need a lot more work team. Let's discuss further.

I support recommendation with the focus on LTIP metrics for next week's discussion. Even though may have been a part of the referenced meetings, it may help to provide a refresher to ensure alignment prior to the Comp Committee meeting.

is following up with Electric to get the remaining slides so I'm optimistic we will receive those before the end of the day. However, it may make sense to reschedule the deep dive with to 1/18 and be more focused on STI (supporting the CC STIP deep dive on 1/21) to a.) allow to finish his meetings with all of the STIP metric owners (completed on 1/11) and b.) allow for more time for QA on the materials.

Note: I think the discussion would likely be focused on the STIP measures as been part of a few discussions around the LTIP target setting already (Public Safety measures/targets at the SNO meeting at the end of Nov and the Greater Affordability Metric at this week's CC meeting; the Customer metrics' targets aren't changing (i.e., non-controversial)).

Reaction to proposal?

This is a challenge – the slides for STIP are not complete and I don't think we will be able to have a good conversation using these materials.
Maybe we should limit the conversation on Thursday, Jan 14 th with to LTIP only. Potentially, we can use deck on the two public safety metrics and then use the slides in this deck for Customer Sat and PSPS Notification. Has Finance built a slide for the Greater Affordability for Customers Metric?
This implies that we will need to shorten the meeting on Thursday 14 th with and, limit the attendees to an and and (as metric owners). Then we would need to schedule another deep dive with regarding STIP during the week of Jan 18 th before the STIP meeting with the CC.
What do you think?

Subject: REVIEW NEEDED- 2021 Incentives Deep Dives Deck Draft Importance: High
Attached is the current draft of the 2021 Incentive Measures Deep Dive Deck for your review. I'm still waiting to get updates from the Electric Team (including the Public Safety) but I wanted to give you a chance to review the broad content. Notes:
 The team is meeting with and the Metric Owners on Thursday from 1:15-2:45 to discuss all STIP and LITP metrics. The focus of that discussion will be around the targets and targeting setting methodology. The attached deck is what I'm envisioning for the meeting. Per direction, this deck will need to be sent out by tonight. The team is meeting with the Compensation Committee on Thursday from 3:30-5 to do a Deep Dive on
the LTIP metrics and other LTIP structural questions (Metric Owners will likely be dismissed after the

o The LTIP section of this deck will be used for this meeting, with additions for the other structural

o The goal is to send this deck out tonight as well but could potentially send out tomorrow.

target setting discussion).

Director, Compensation
