**Attachments:** Public Safety LTIP Target Setting V35.pptx

[REDACTED]

For #3, please look at the following deck slide 11-16. This is a pretty dated deck back in November, forwarded in January, and it came from [REDACTED]. I assume KPMG should be familiar with the target setting slides to get the latest.

Thanks,  
[REDACTED]

This was a delegation from Debbie - not sure why it went to me.

Can you send me what you have and I will see if I can get KPMG to help too.

Is number 3 related to LTIP targets?

Thanks,  
[REDACTED]

We have content for 1, 2 and 4. Are Jeff Borders and Michael Ritter available to respond to these? They might

have a perspective on 3. I am not sure on the content for 4.

[REDACTED]

Here is my understanding of the agenda.

1. 2021 System Hardening Work Plan – how did the 2021 Equipment Risk Model guide it
2. 2021 EVM Work Plan – how did the 2021 Vegetation Risk Model guide it
3. Public Safety Metric Targets Associated with SH and EVM
4. 2021 Inspections and 2021 Repair Work in HFTD and HFRA's – How are we moving towards a risk driven view. what changes will we implement in 2021
5. Outline the formulation of a new program – Fire Ignition Component Replacement / Mitigation

I'm cc'ing Andy for more information.

Thanks,
