Subject: [EXTERNAL] [FYI] PSPS analysis files

Hello [REDACTED]

Thanks for the call this morning. Please find attached –

1. 10-year weather model which I used for the PPT I shared earlier
2. Risk by CPZ dataset
3. Actual PSPS events data – [REDACTED] team had put this together. It takes a look at how many customers were repeatable impacted by PSPS events throughout 2019 and 2020.
4. 30-year weather model (as a reference point. ICF had used this one in their analysis)
5. The data sheet I used to create the PPT. It includes data from items 1, 2 and 3 above.
6. 2020 events at the CPZ level – this was prepared by [REDACTED] team and shared with me yesterday. I have not had a chance to dive deep into it but it looks at 2020 events at the device level (effectively by CPZ).
7. ICF data file
8. Some notes from Meteorology regarding the 10-year historical lookback

Other action items

- [Renata] – Done – I've made an intro to [REDACTED] via email
- [Renata] – WIP – I'll add [REDACTED] to a meeting with meteorology team on Monday
- [Ryan] – WIP – draft summary of strategic direction send to [REDACTED] by Friday AM
- [Ryan] – WIP – to connect with [REDACTED] by 12/03 latest
