[REDACTED] and [REDACTED]

As part of the discussions that [REDACTED] has had with the compensation committee of the board regarding the LTIP Metrics for System Hardening and Enhanced Vegetation Management, he had stated that we would provide monthly updates at a fairly granular level

Attached are the two spreadsheets which have the detail on all the work that is in the pipeline to support targeting work that reduces the most risk.

These files would be informational only and do not need to be discussed during the meeting but [REDACTED] wanted to have them sent out with the pre-read.

[REDACTED] has reviewed an earlier version, but is out in the field and has not had the chance to review this exact version. I will be meeting with him to make sure he is comfortable with everything that is in these files.

For context.

In 2021

System Hardening – 1.0 Target is – 200 Miles --- Team is getting 504 miles prepped to ensure we meet the target  
Enhanced Vegetation Management – 1.0 Target is 1890 Miles – Team has currently been approved for 17
