Its odd he says unapproved as that we be approved, do we have that list of jobs so we can validate that is what it was?

Sincerely,

[Redacted]

I believe it was work that was just approved by the wfsc of work that was in cons status but deferred. We asked the pms to submit a change request to get in the work plan

Who made the decision to add unapproved hardening miles back into the work plan?

Sincerely,

[REDACTED]

At the request of ramping up crews, we will be asking the Vendors to bring on additional crews to support the System Hardening projects and their schedules. This request is being supported by the decision to add back in Hardening Miles that had been recently removed and not approved. I have communicated with our Construction Management Team to work with the Project Managers on identifying the appropriate placement and positive impacts to the different projects. Please let me know if you have any additional questions.

Best,

[REDACTED]
