Hi [REDACTED]

I would like to financially start my projects off in the correct direction, to help me do this I will need your assistance in determining the correct value to HGR each month, and your forecasted spend for the next month. The output of this meeting would be a table like the one below that you can share with whomever will enter the HGR's for your contracts, while [REDACTED] and myself will forecast the next months expected spend. As we get move through time we should get good at doing this and being accurate.
