All,

Please Join the IC for a high level review of the damage assessment after review of a flight of the Bucks Creek 1101 yesterday. The circuit was flown and not ground patrolled so we are assuming the pole count will go up when access is granted to ground patrol. EC tags are showing in Google Earth as of this morning.

Objectives for the meeting:

-Identify areas of Damage

-Discuss Bucks Creek 1101 UG Hardening Scope

-Identify Actions for estimating.

-Identify actions for OEC.

-Discuss Temp generation options.

Sorry for the short notice and forward to anyone that should be included.

Thanks,

[REDACTED]
