The purpose of this meeting is to discuss PG&E's proposal to underground its electric facilities on Highway 70 (SR 70) at Bucks Creek (see attached vicinity map). PGE would like to start engaging with Caltrans leadership team to partner in its proposed projects to continue to remove above ground electric facilities in this high fire area.

I have also attached a District 3 Complex Utility Project Agreement and Encroachment Permit that was issued for a similar project on SR 70 as information only.

Please let me know if you have any questions prior to this meeting.
