Subject: Bucks Creek 1101 - Job Walk
Attach: [REDACTED] ConDWGD 40 Scale Prelim.pdf; [REDACTED] ConDWGD 40 Scale Prelim.pdf

Hi [REDACTED],

I reached out to [REDACTED] with Psomas and he said he has a crew available to walk the Bucks Creek 1101 project Wednesday. Are you able to set up a meeting between PG&E, Psomas, Construction etc. to nail down our proposed trench route and box locations for this project. My thought would be to survey everything Wednesday, then update the design and walk the job with Caltrans in the following days so we have a solid design to hand over to Caltrans. Let me know if you have any questions or concerns or if there is anything I can help with. Thanks

[REDACTED],
Attached are the preliminary designs so you can see the scope/ design we have so far.
