Hi [REDACTED]

I would like to financially start my projects off in the correct direction, to help me do this I will need your assistance in determining the correct value to HGR each month, and your forecasted spend for the next month. The output of this meeting would be a table like the one below that you can share with whomever will enter the HGR's for your contracts, while [REDACTED] and myself will forecast the next months expected spend. As we get move through time we should get good at doing this and being accurate.

Order	Order Description	Base Map Status	Expected Base Map Complete	Base Map Vendor	Surveyor	Contract Value/ Hours expected	March HGR amount	April Forecast amount
