All,

On the 15th you show Bucks Creek 1101, if possible. The top shows Middletown (Lake County) as community, but it is actually the town of Storrie (Plumas County) in the Feather River Canyon. The time allowed will not be sufficient to drive up the canyon all of the way to see the Bucks 1101. Either the time needs to be adjusted or we option to driving to the top of the canyon for Jarbo Gap and talk about the canyon and why the risk model changed so much.

[REDACTED]
Awaiting the meeting that [REDACTED] scheduled, Can you please send us some meeting location proposals for the System Hardening projects. Let me know if we need to schedule a meeting to discuss.

Note that Fitch Mountain will not be visited.

Can we get location by noon tomorrow if possible (if not let me know when we can)?

Thanks for the help as always!

[REDACTED]
Just confirmed with Filsinger that Fitch Mountain will not be visited. For all other projects, could you please complete the TBDs in the document that [REDACTED] sent? They want to complete these ASAP so they can discuss the final agenda with [REDACTED] tomorrow.

Thanks,
[REDACTED]

[REDACTED]

Fitch Mountain is a backup option at this point – Filsinger wanted to have a SH project in the vicinity of Calistoga, after the visit the substation. I will confirm with them whether they want to visit it or not.

For December 15, you are right, that's a typo. They will be using Chico as a base for that day for the helicopter visit of the Hoopa 60kv and will return to Chico after the visit, so time permitting they will visit Bucks Creek 1101. I will correct.

Thanks,
[REDACTED]

I'll get on it. Two things I noticed from the attachments –

- There is a copy of the Fitch Mt .kmz file, but no mention of visiting that site on the agenda. Was that missed, or is that slide for reference?
 - For the Dec 15 agenda, the SH site town noted is Middletown, but the circuit to be reviewed is Bucks Creek 1101. Can I assume that the Middletown note is incorrect (probably cut and paste error) and that a town like Oroville, Storrie or Rodgers Flat can be put in its place?
- [REDACTED]

Hi [REDACTED]

We need to coordinate these system hardening. Can you please start on it and we should probably schedule couple of coordination meetings next week.

Let me know if you need any help.

Thanks,
