 Attachments: 2021 System Hardening Weekly Summary (Ran 1-6-2021 v2).xslm

Team,

Please see the updated file with an adjustment made to 2AF for additional 1.2Miles installed for 2020. Per your request [REDACTED], the DOT is now updated though the refresh will be overnight to sync with the database from which the summary pulls from. As such, I've hard coded the number for this week but will reflect as active data the next time we refresh the summary.

For reference the order numbers adjusted are listed below.

Order	Order Description	OH Feet	Planned Conduct or Feet	Planned Conduct or Miles	2020 Forecast Feet	2020 Forecast Miles	2 F Inst
31252580	3/1/18 REMV IF IRO COURTNEY DR KENW*OCLH	171	171	0.03	171.00	0.03	
35016714	12/31-ST-CON_IDL_RMV-2 S/O TX-WHEEL BARR	856	856	0.16	856.00	0.16

 Subject: 2021 System Hardening Weekly Summary 1/6/2021

Hey [REDACTED],

Please find attached a copy of this week's update for the WSHP weekly summary. As noted previously, the data in the ADA has not yet pivoted to display 2021 installed mileage yet. I'll follow up again with our exponent contact today to see when that will take place.

Feel free to reach out if you have any questions.

Regards,
