Attachments: FW: New Orders for the DOT; Orders with Mileage in the Executive summary report not yet in DOT ; RE: Oroville fire PMs - order number correction

Hey [REDACTED]

Sorry should have cced you as well but the order number 35122401 in the file should actually be 35212401 and was taken into account in the backend table the [REDACTED] is going to update. See my email attached.

Also I assumed looks like incorrectly that the attachment file was intended for 2021 forecasted miles so apologies for that and thanks for the correction. I think out of the 213 miles the .07 Miles currently sitting with the 07D project will need to be moved to 35122401 once the order has made it into DOT. In fact should 35122401 even been in the data?

The orders you asked about below were added based on the following

- 35217274 (Email labeled: FW New Orders for the DOT from 12/9/2020)
- 35217275 (Email labeled: FW New Orders for the DOT from 12/9/2020)
- 35220936 (Provided by the Exec Status Report 1.07.21 Under orders highlighted in Green see email labeled: Orders with Mileage in the Executive summary report not yet in DOT)

[REDACTED]

The first order on your attached list is an 07D order. Do you know why it's not an 08W?

I updated the mileage on the attached to show up under 2020 and it totals to 213 miles. Does that sound like the right number to you?

We currently have three orders in the log that aren't below or on the attached;

- 35217274
- 35217275
- 35220936

Do either of you know if these are past, present or future projects and/or any other details that would help me understand these orders?

Subject: RE: Oroville fire PMs

Is the attached KMZ from September still accurate for Bald Rock Rd?

I couldn't find any old emails for detailing the exact locations for Lake Madrone. Do we have a planned mid-point? I believe it started at SAP ID 100348068 re-routing the OH down Oro-Quincy Hwy to SAP ID 100413259. It looks to be roughly SAP ID 103126482.

HWY 162 is from Reg 1587 to 100360618?

Thanks,

Subject: RE: Oroville fire PMs

[REDACTED]
Can you please rename the following PM's, make a note in the long text, and route AA's for the following projects? We'll work on Oro Quincy Hwy after we get these AA's routed.

Currently with PM's

WBS Level 1 or Project Definition	WBS Level 3	Name	Notification	PM
E.5034572	E.5034572.01.08	FRRB – Big Bend 1102 – LR 1972 UG -Big Bend 1102 – Lake Madrone Zone 1	120255838	35
E.5034572	E.5034572.01.09	FRRB – Wyandotte 1103 – LR 1974 UG Wyandotte 1103 – Bald Rock Zone 2	120255980	35
E.5034572	E.5034572.01.10	FRRB – Wyandotte 1103 – LR 1976 UG Wyandotte 1103 – Bald Rock Zone 3	120255982	35

Requested PM's

WBS Level 1 or Project Definition	WBS Level 3	Name	Notificati
E.5034572	E.5034572.01.11	FRRB – Big Bend 1102 – LR 1972 UG Ph2-Big Bend 1102 – Lake Madrone Zone 2	1204245
E.5034572	E.5034572.01.12	FRRB - Wyandotte 1103 -LR 1974 Bald RockZone 6	1204245

E.5034572	E.5034572.01.13	FRRB - Wyandotte 1103 --LR 1976 Bald Rock Zone 7	120424672
E.5034572	E.5034572.01.14	FRRB - Wyandotte 1103 --LR 1508 UG - Wyandotte 1103 HWY 162	1204247

We'll need tweak the CWSP 08W AA template to reference the North Complex fire rebuild.

Start working on the routing for HWY 162, we'll hopefully have the PM generated from [REDACTED] before we finish doing the AA's. If not we'll rename Wyandotte 1103 -- LR 1976 to HWY 162.

Thanks,

Notifications are getting created, should have PM's later today. I'm realizing this is more planned work, so we probably need an AA for this stuff getting done in 2021. Do we have rough distances for the different zones? Just so we can get authorized to spend up to \$950K or something.

Thanks,

To: [REDACTED]
Subject: RE: Oroville fire PMs

If we use **35223344 FRRB - Wyandotte 1103 - LR 1974 UG** for Zone 2 and **35223345 FRRB - Wyandotte 1103 - LR 1976 UG** for Zone 3, then we will need two more Wyandotte 1103 PMs for Zone 6 & 7.

We can use 35223343 FRRB - Big Bend 1102 - LR 1972 UG for half of Lake Madrone, then make an additional Big Bend 1102 for the second half of Madrone and one for Brush Creek.

That should do it for now.

[REDACTED]

Sorry, I started and didn't send the email yesterday.

These are brand new PM's for the UG work for the fire rebuild, I thought that was the request. We can create more PM's if you'd like to break it down by segment. Whatever makes it easier for your team. I can create as many notifications as you guys need.

Thanks,

Are these orders for additional scope beyond the source side LR or do these somehow correspond to the undergrounding projects as laid out during the fire response that still need to be built, i.e., Bald Rock Rd. Zones 2,3,6,7 and Lake Madrone?

[REDACTED]

I'll create new notifications for these UG work sections. The PM's we had for these zones already have had charges moved to them. It'll likely make this all cleaner/easier than estimating projects with millions already charged to them.

Thanks,

Hi [REDACTED]

Yes, these are the underground projects at the ends of Wyandotte 1103 and Big Bend 1102. Unless there is a

financial reason to do these projects as 95F and then JE later, it would be cleaner altogether to estimate them under 08W orders only. It will eliminate multiple steps and duplication of estimates to get them to settle correctly at the end. Just my two cents. Please forward me the order numbers when you get a chance so I can get this set up. Thanks.

[REDACTED]

Are these the UG rebuilds at the tail end of Wyandotte 1103 and Big Bend 1102? If so, then yes. We have PM's created for these zones.

[REDACTED]

If we'll need UG only PM's to prevent rebuild crossing two years we can get the notifications to estimating for PM creation today.

Thanks,

[REDACTED]

[REDACTED]

Can you confirm if these locations have existing 08W orders that [REDACTED] can work with? Otherwise I believe there was a request from [REDACTED] and others that these projects stay in 95F until completed so as not to disturb the flow of the work and then JE the cost over later. I'm fine either way, but the 08W orders created under worktype 198W will have order issues if not managed properly.
