The EDRS routings for Upper Lake and Konocti have been updated with the “0 to 10” documents and links are in the table you created below. Links to the same documents in the sharedrive are here: [Upper Lake](#) & [Konocti](#).

I'd like to note that both were a little unique:

- Upper Lake – The preferred alternative was Remote Grid which wasn't really accounted for in the template EASOP so I had to make some stuff up.
- Konocti – The preferred option (ALL OH) came out to cost more than the hybrid. The hybrid for some reason had an overall shorter distance so despite being partially UG, it was less than the OH option. I don't know why the preferred option was ALL OH. Maybe it's due to other constraints but I couldn't find anything in the FSD or another other documents that said why.

Let me know if you have any questions or want me to make any updates.

There wasn't a environmental review on your EDRS for Konocti so I just made one from the info in the FSD. I think that's how the Enviro Review gets made but if not, please send me the official review and I'll upload it.

Team,

I likely won't be conscious for this meeting after working nights since Friday. But the focus for the discussion is getting those projects that are currently routed for scoping approval ready for my approval meeting with the Wildfire Governance Committee on Thursday between 5-7PM. Those Projects I expect to be able to present are:

<a href="#">2021-00327</a>	35192284 - ECOP - SILVERADO 2104 - H05-LR726	EDR request is being routed.	[Redacted]	Project Scope	35192284 08W	[Redacted]	1/15/2021

All project Scopes should be saved here: [\\fxshare-nas05\quotashare-fs01\EC-TAG-OP\B&V\11. 2021 CWSP Projects\Project Scopes](#) or for ECOP [\\fxshare-nas05\quotashare-fs01\EC-TAG-OP\B&V\9. ECOP Hardening](#)

The format should be:

0. Checklist
1. Field Scoping Document (FSD)– [REDACTED] Provided
2. Project Summary Slide – SH\_Decision Framework Template provided [here](#)
3. Tree Strike Potential KMZ's – Created by ATS and saved [here](#). Modify slide presentation for specific project. If missing, contact [REDACTED] to update.
4. EASOP Analysis and RSE – Work with [REDACTED] if you need help. Utilize the data gleaned from the scoping meeting and FSD to complete.
5. Identified EC Notifications (H tags) – Work with [REDACTED] to acquire if you do not have this information already.
6. Segmented Key Sketch – Estimating Provided and should already be in EDRS.
7. Public Safety Specialist (PSS) Review – [REDACTED] Provided
8. Sub Order Table – Draft provided by [REDACTED] completed by us when new orders initiated.
9. Land & Environmental – KMZ's and spreadsheet's provided by [REDACTED]
10. Preferred/alternative Drawings – Drawings Provided by planning when updated based on scoping meeting decisions.

Update EDRS with the documents once complete and send me the link and notification that you are done. I'd like to review and I may need to talk through some of your assumptions. **These need to be complete by COB Wednesday 1/20/2021** so I have time for review and we can send the information ahead to the WGC ahead of the approval meeting.

This is all hands on deck guys, if you don't have a job to complete or are done with yours, reach out to the rest of the team to help.

Thanks all!
