Is/was it your intention to have [REDACTED] run the summary portion of our weekly system hardening call? He seems to think it is, but I was not aware of that. I had thought the reporting questions were more geared to make sure we had accurate data for the Friday meeting that you and [REDACTED] ran. From my perspective the Wednesday call is specific execution meeting and was geared more toward our team where Friday was more program level update.

Thoughts?

Some of the measures included in this email are contemplated as additional precautionary measures intended to further reduce the risk of wildfires.

Hi [REDACTED]

Please find the attached SH Weekly summary that was refreshed and adjusted based on your feedback as of this afternoon.

Note that we are now including a cumulative total for each section of the summary, a column to display progress week over week as well as prior weeks snapshot of the cumulative data.

If you have any questions please feel free to reach out to me.

Thank you very much!
