Subject: FW: Projects needs scoping documents uploaded to EDRS - Update 1/31/21 PM

Classification: [Internal](#)

Wyandotte 1109 is almost complete. I just received the segment map and the estimator proposed a different scope if we cannot UG down Featherfalls Blvd.

I asked [REDACTED] to provide another Hybrid alternative in the case we cannot UG down Featherfalls Blvd. I'll go ahead and work on the EASOP for the 2nd Hybrid option while I wait for [REDACTED]

Here is what I have for now:

Thanks,

[REDACTED] updated slides. I'll get them updated in EDRS and the sharedrive now, but I wanted to get them to you first.

[REDACTED]

These three are updated. I grouped them together in this attachment to hopefully save you that one step.

Would you like me to replace the decision framework slides in the EDRS routings with these? I already uploaded the new slides but I wasn't sure if you wanted the old decision framework removed...

Thanks,

Update: [Wildfire Hardening Template v2](#) – Team we need to update our templates to the new format in the link provided. I tried to update some, but I couldn't. We need to discuss the required changes quickly so that we can get these inform slides ready for the committee by 10AM Tuesday 2-2-21.
