Hey [REDACTED]

I've updated the mileage based on the table below. Doesn't seem like the mileage picked up in the overnight refresh so I added the values manually to the file.

[REDACTED] this contains some late breaking installed mileage but the overall total mileage doesn't shift that much from the one I sent earlier this morning.

Hi [REDACTED]

My apologies for not sending sooner, but we also got confirmation on a Stockton project footage, noted in the table below (in addition to the ones for HB/SO in the previous attachment).

Footage (Wire Pulled)	Div	Resource	Order	Order Desc
4,802 ft	ST	GC	35114044	CWSP - PINE GROVE 1102 - LR1222 - PH 1.6
3676 ft	HB	GC	<u>35094397</u>	CWSP-KONOCTI 1102-LR 532 PH 10
3195 ft	SO	GC	<u>74022384</u>	CWSP - FITCH MOUNTAIN 1113 LR 24918

Thank You,

Thank you [REDACTED]

Should we add the GC footage [REDACTED] sent earlier (attached)? Since this will be January recorded completion, we need to doubly sure we are capturing everything.

Thanks!

Can you please send the final January construction completed in the following format? I would be updating around 5 PM, so would appreciate if you can send it by 4:30 PM.

Project / Order #	2021 Feet Installed

Thanks!
