[REDACTED]

Due to the re-alignment of OH and UG miles to separate orders, I needed revised segment maps and additional orders created. I am still waiting on the sub order tables before I can complete the Front Door request.

Thank You,

I'm not sure what system you have set up with [REDACTED] for getting the front door requests submitted, but would you please look at the projects below that [REDACTED] has not received from you and initiate the front door process?

The green highlights below were all submitted though the Front Door.

The yellow highlight already change to PM [REDACTED].

The non-highlighted Shingle Springs PH 1 & PH 2, along with segment phases has not been received to initiate the Front Door request.

Thank you,

Do you know if front door requests have been sent in for the projects below?

Supervisors,

I need PMs assigned ASAP so they can populate the prioritization worksheet. Without this I can't negotiate an EOD for these projects.
