3/1/2021 5:11:33 PM FW: Hardening Action item calls-Director required 1x per week. - See updated notes. 2021 System Hardening Daily Summary (Updated 3-1-21) .xlsm; Copy of Project List MAT 08W 2.0 022521.xlsx

Here is the cost walk so you can see where the discrepancies are. We are very confident in our data. I will coordinate an initial meeting with and team to see what can be done to close the gap. The issue for the team is that we have created a very sophisticated tool that is updated every day and in real time, and the engineers have been hesitant to use it.

Lastly, you will notice that the totals don't tie to their spreadsheet meaning Asset has 542 miles versus listed below. That is because Asset is tracking projects that are not yet to us just yet

SAP Status Group	Asset	DOT	Variance from DOT		
Construction	45.2	53.0	7.8		
Ready	8.2	12.8	4.6 0.8 (25.4)		
Dependency	7.2	8.0			
Estimating	96.4	71.0			
Scoped	-	115.3	115.3		
In Scoping	289.3	188.9	(100.4)		
Pre-Scope	1.0	1.0	0.1		
	447.3	450.0	2.7

Can you have the team do a cross walk tomorrow against list at the order level? We are off by about 50 miles more than which means we have a data error or we have unapproved work still going.

Sincerely,

Director, Portfolio & Project management Pacific Gas and Electric Co.
