[REDACTED]

Good morning! Hope you all had a relaxing weekend.

Re: EVM methodology changes in [REDACTED] email below, can you confirm whether this is just for Dx planning (sorry for not keeping up with all the vege related workstreams)? If this relates to Tx planning too, would appreciate any info you can share as I'm trying to better integrate WM and PSPS mitigation planning for 2021 and 2022. Thanks!

Best Wishes,  
[REDACTED]

**Subject:** Electric Asset Strategy | Week in Review for February 28 - March 7, 2021

**Electric Asset Strategy Team:**

**Purpose:** To provide additional transparency and visibility into the current activities that my leadership team and I are involved in, as well as point out some of the recent key accomplishments, I have prepared a weekly review on these items that have occurred over the last week. Due to size of the attachments, link to the entire update with attachments can be reviewed in OneDrive link (listed above).
