Hi [REDACTED],

Here is our Basemap Tracker updated as of an hour ago. Column C is our current order of Priority; please let me know if any changes are needed.

Also of interest will be Columns H & I as they have Caltrans information. FYI: Caltrans Districts 5 & 10 currently have horrible cycle-times which is why their cells are highlighted red; we will want to prioritize them due to their unusually long lead times.

Lastly, Column T has comments from the Land Surveyors – concerns which can probably be addressed by your or the Project Manager.

Thank you! [REDACTED]
