Attachments: 2021-3-23_System Hardening Basemaps.xlsx

Hi [REDACTED]

Attached are updates as of noon today. **Of particular note: 33 of these projects, per the current SOW, trigger the DSDD requirement;** you can see which ones by filtering Column I.

Column H: Caltrans District (District 5 & 10 have particularly long lead times)

Column I: DSDD indication

Column U: Land Comments that are likely helpful

The sooner we can get the Estimator's name the more swiftly we can hand the Basemap over. 😊

Thank you! [REDACTED]

Hi [REDACTED]

Here is our Basemap Tracker updated as of an hour ago. Column C is our current order of Priority; please let me know if any changes are needed.

Also of interest will be Columns H & I as they have Caltrans information. FYI: Caltrans Districts 5 & 10 currently have horrible cycle-times which is why their cells are highlighted red; we will want to prioritize them due to their unusually long lead times.

Lastly, Column U has comments from the Land Surveyors – concerns which can probably be addressed by your or the Project Manager.

Thank you! [REDACTED]
