+ [REDACTED] to provide visibility, specifically for hardening, which i believe is the main item you're referencing.

Thanks,

---

[REDACTED]

On our scorecard call on Friday, [REDACTED] asked for visibility into pre-estimating/PM activities cycle times and miles for System Hardening work (UNSE->ESTS in the system). As you know, there is a lot of scoped work sitting in that stage with PMs for Project Plans, Land base maps, transmission coordination set up etc. (as needed). I could not join the call on Friday, but I did learn that this item was discussed during the scorecard review meeting?

Since this belong under your team, would you be providing visibility into this?

Thank you and please let me know if I can help.
