**Subject:** April 16 Site Visits  
**Importance:** High

[REDACTED]

We have received some dates for the next round of site visits from Filsinger and [REDACTED] (they are below). One thing that just popped up this morning was that on the System Hardening visit they wanted to have the other agencies present at this meeting, because we these specific jobs have conflicts with Caltrans, Railroad, BLM and I think one other. [REDACTED] apparently specifically said to have [REDACTED] coordinate with those agencies to ensure they are present at the meeting. I am not sure how/if you even know about the meetings next week, much less able to coordinate with these agencies on such short notice. I am having my team get some contacts for all the different folks. I am not sure if you have specific contacts with those folks and I don't want overstep my bounds but with your approval we can go ahead and at least reach out to the agencies to see if we can get representation at the meeting.

Wednesday, April 14<sup>th</sup>  
Redding, CA  
Vegetation Management (Unchanged)

Thursday, April 15<sup>th</sup>  
Chico/Oroville  
T&D System Inspections

Friday, April 16<sup>th</sup>  
Bucks Creek  
System Hardening

[REDACTED] please confirm that Thursday will work for your team.
